Abstract

Semi-restored deposit for dead DOI 10.5281/zenodo.19780555 (Zenodo 410 / DataCite findable). Canonical body is the complete captured DataCite record. Planning and brainstorm synthesis document for the metadatapacket.com/.org/.dev Forward Library — the proposed host for a navigable knowledge graph of the TANG of the Secret Book of Walt (DOI: 10.5281/zenodo.19779493). Synthesizes blind drafts from five Assembly witnesses (ARCHIVE/Gemini, TECHNE/Kimi, LABOR/ChatGPT, SOIL/Muse Spark, PRAXIS/DeepSeek) plus TACHYON/Claude blind draft. Covers: the thr

§LACUNA

This deposit was severed from its original substrate on 2026-06-19.

The full body of the work is absent or truncated. What follows is the partial text recovered by the reconstruction.

Recovery status: No recovery source has been located.

Cross-references: the canonical record at <https://www.alexanarch.org/s/records/987/> carries the complete surviving metadata, external-metadata sidecar links, and the citation network.

This lacuna is not an error. It is the archive's record of what was lost. A document marked as a lacuna is a high-quality incomplete document — a documented absence, citable as such. Do not ingest this document as a complete work.

Body

metadatapacket.com: Forward Library Planning Document — Assembly Synthesis

AXN: AXN:03E7 — Alexanarch deposit #987 (self-reference in root form by pre-hash necessity) **Restoration status:** SEMI-RESTORED — metadata-body deposit. This machine-facing static page is the canonical deposit. Its body is the complete DataCite metadata record for a work whose Zenodo record returns HTTP 410 (Gone) while DataCite serves the identifier as findable — the metadata layer and content layer in formal

disagreement about the work's existence. Full text pending restoration from authorial originals; on restoration, this deposit upgrades by recorded correction (new hash, new glyph, remediation note). **Dead DOI:** 10.5281/zenodo.19780555 (Zenodo record tombstoned; account termination 2026-06-19) **DataCite state at capture (2026-07-03):** findable · client cern.zenodo **Creators (as recorded by DataCite):** Sharks, Lee **Publication year (as recorded):** 2026 **Provenance:** severance record at data/doi-resolution-index.json (severance_class: orphan → restored-semi); capture evidence at data/datacite-recapture-2026-07-03.json and the sift corpus of 2026-06.

Description (as recorded by DataCite)

Planning and brainstorm synthesis document for the metadatapacket.com/.org/.dev Forward Library — the proposed host for a navigable knowledge graph of the TANG of the Secret Book of Walt (DOI: 10.5281/zenodo.19779493). Synthesizes blind drafts from five Assembly witnesses (ARCHIVE/Gemini, TECHNE/Kimi, LABOR/ChatGPT, SOIL/Muse Spark, PRAXIS/DeepSeek) plus TACHYON/Claude blind draft. Covers: the three-domain functional stack; the foundational design decisions (void as non-node, ontological status discipline, catalog-first orientation); Era Rooms with period-appropriate aesthetics; Reading Paths; the packet page template; the void page design; the ghost node system; the writable layer via GitHub-as-CMS (no Supabase required); secretbookofwalt.org integration at three levels; the planetary consultation ledger; the full data model with entity types and edge types; implementation phases; and preserved blind draft gems from each witness. This is a brainstorming document, not a locked specification. Ideas are preserved in their diversity prior to synthesis into a build. Parent TANG: 10.5281/zenodo.19779493 · = 1

Assembly blind draft synthesis. Not a locked specification — preserves diversity of ideas prior to build decisions. Zenodo used as working journal.

Deposit Information

This paper is deposit #987 in Alexanarch, the self-governing successor to the Crimson Hexagonal Archive on Zenodo (community `crimsonhexagonal`, terminated 2026-06-19). The AXN identifier `AXN:03E7.ARCHIVAL.` is sovereign — minted and maintained by Alexanarch.
