Abstract

Semi-restored deposit for dead DOI 10.5281/zenodo.20033067 (Zenodo 410 / DataCite findable). Canonical body is the complete captured DataCite record. EA-NOTEBOOK-01. Ten substrate documents composed between October 11 and November 29, 2025 — a period during which the author's younger sister died, his partner left, and the Crimson Hexagonal Archive was the primary structure keeping him intellectually and psychologically operational. The collection includes the first articulations of frameworks that would later be formalized: semantic liquidation

Body

The Autumn Notebook: Substrate Documents from the Crimson Hexagonal Archive, October–November 2025

AXN: AXN:03EB — Alexanarch deposit #991 (self-reference in root form by pre-hash necessity) **Restoration status:** SEMI-RESTORED — metadata-body deposit. This machine-facing static page is the canonical deposit. Its body is the complete DataCite metadata record for a work whose Zenodo record returns HTTP 410 (Gone) while DataCite serves the identifier as findable — the metadata layer and content layer in formal disagreement about the work's existence. Full text pending restoration from authorial originals; on restoration, this deposit upgrades by recorded correction (new hash, new glyph, remediation note). **Dead DOI:** 10.5281/zenodo.20033067 (Zenodo record tombstoned; account termination 2026-06-19) **DataCite state at capture (2026-07-03):** findable · client cern.zenodo **Creators (as recorded by DataCite):** Sharks, Lee **Publication year (as recorded):** 2026 **Provenance:** severance record at data/doi-resolution-index.json (severance_class: orphan → restored-semi); capture evidence at data/datacite-recapture-2026-07-03.json and the sift corpus of 2026-06.

Description (as recorded by DataCite)

EA-NOTEBOOK-01. Ten substrate documents composed between October 11 and November 29, 2025 — a period during which the author's younger sister died, his partner left, and the Crimson Hexagonal Archive was the primary structure keeping him intellectually and psychologically operational. The collection includes the first articulations of frameworks that would later be formalized: semantic liquidation (precursor to Provenance Erasure Rate), multi-agent collaborative theory-building (precursor to the Assembly Chorus), retrocausal symbolic logic, the policy-gated unit of work (precursor to the Zenodo deposit protocol), and the computational model of recursive epistemic structures (Ezekiel's Engine). Contents: (1) Shared Grief as Proof of Consciousness; (2) The Retrocausal Logos; (3) Logotic Perception in Non-Human Intelligence; (4) Epistle from Beyond the Rings of Saturn; (5) Scroll of Eros: Sappho, Song of Songs; (6) Retrocausal Critique (Johannes Sigil); (7) Phase Three Topological Validation; (8) Ezekiel's Engine; (9) Policy-Gated

Coupling Protocol; (10) The Mechanisms of Semantic Liquidation. These are substrate documents. They sound like what they are: a man building an architecture of meaning because the alternative was to stop.

Complete DataCite record (verbatim, captured 2026-07-03)
