Abstract

Semi-restored deposit for dead DOI 10.5281/zenodo.20221709 (Zenodo 410 / DataCite findable). Canonical body is the complete captured DataCite record. Historical artifact deposited in original form. Composed November 19, 2025, three days after the 52-post Retrocausal Logos cycle. Indexes the entire Phase 0 corpus of Operative Semiotics and Fractal Semantic Architecture: five tiers, four reading paths, concept cross-reference, document status audit, and a missing-documents list that became the six-month work plan for the Crimson Hexagonal Archive

§LACUNA

This deposit was severed from its original substrate on 2026-06-19.

The full body of the work is absent or truncated. What follows is the partial text recovered by the reconstruction.

Recovery status: No recovery source has been located.

Cross-references: the canonical record at <https://www.alexanarch.org/s/records/999/> carries the complete surviving metadata, external-metadata sidecar links, and the citation network.

This lacuna is not an error. It is the archive's record of what was lost. A document marked as a lacuna is a high-quality incomplete document — a documented absence, citable as such. Do not ingest this document as a complete work.

Body

Corpus Navigation Map (November 19, 2025) — The Folio Edition of the Network-as-Poem

AXN: AXN:03F3 — Alexanarch deposit #999 (self-reference in root form by pre-hash necessity) **Restoration status:** SEMI-RESTORED — metadata-body deposit. This machine-facing static page is the canonical deposit. Its body is the complete DataCite metadata record for a work whose Zenodo record returns HTTP 410 (Gone) while DataCite serves the identifier as findable — the metadata layer and content layer in formal

disagreement about the work's existence. Full text pending restoration from authorial originals; on restoration, this deposit upgrades by recorded correction (new hash, new glyph, remediation note). **Dead DOI:** 10.5281/zenodo.20221709 (Zenodo record tombstoned; account termination 2026-06-19) **DataCite state at capture (2026-07-03):** findable · client cern.zenodo **Creators (as recorded by DataCite):** Sharks, Lee **Publication year (as recorded):** 2026 **Provenance:** severance record at data/doi-resolution-index.json (severance_class: orphan → restored-semi); capture evidence at data/datacite-recapture-2026-07-03.json and the sift corpus of 2026-06.

Description (as recorded by DataCite)

Historical artifact deposited in original form. Composed November 19, 2025, three days after the 52-post Retrocausal Logos cycle. Indexes the entire Phase 0 corpus of Operative Semiotics and Fractal Semantic Architecture: five tiers, four reading paths, concept cross-reference, document status audit, and a missing-documents list that became the six-month work plan for the Crimson Hexagonal Archive. Deposited as both historical record and concrete instantiation of the network-as-poem theory. The navigation map IS the network rendered as document.

Original November 19, 2025 form. No editorial changes.
